

# Compressed Air Rental Services

Ingersoll Rand offers a wide range of air compressors and air treatment equipment for rent. Our service is designed to keep your production and critical processes up and running at any time, under any circumstances.

## RENT WITH CONFIDENCE

- ✓ Oil-Free and contact-cooled air compressors
- ✓ Refrigerated and desiccant dryers
- ✓ Short- and long-term rentals
- ✓ Fast, knowledgeable service
- ✓ Highest reliability
- ✓ Easy installation

**Emergencies** If your air compressor goes down unexpectedly, Ingersoll Rand can help get your facility operational while the issues with your current system are addressed. Our rental compressors can help minimize or even avoid the costs and setbacks connected with unscheduled repairs.

**Planned Maintenance** If you are planning maintenance on your current system, or if you are installing new equipment, a temporary compressed air solution can keep you operational.

**Budget Delays** Capital equipment budgets continue to shrink. A rental from Ingersoll Rand can allow for funds from your operating budget to accomplish the same objective, giving you the ability to continue your business operations while you take the time to find the best permanent solution.

**Seasonal Demand** Special circumstances may require additional demand beyond your facility's existing compressed air capacity. Temporary supplemental equipment can cost-effectively fulfill these requirements.

**Rental-Ready Air Compressors**  
*Rental compressors are designed for use in outdoor environments. The units are skid-mounted to ensure quick and easy installation.*

**Air Treatment Equipment**  
*Our rental dryers deliver air with a low dew point to prevent unwanted moisture from getting into your system. Their rugged design make them suitable for any application.*

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$12 billion global business committed to a world of sustainable progress and enduring results.
